Introduction Letter to RMIT University's Postgraduate Chinese Medicine Programs

I have asked Dr Henry Liang, Principal of Sydney Institute of Traditional Chinese Medicine (SITCM) for his assistance to distribute this letter and program brochure to you for your information. This is to advise you that as graduates with an accredited Advanced Diploma in Traditional Chinese Medicine from SITCM, you are eligible to apply for admission (with RPL) into RMIT's highly regarded postgraduate coursework programs in acupuncture and Chinese herbal medicine to be qualified for registration with the Chinese Medicine Registration Board of Victoria. Further information about the Board's approval is available on <http://www.cmr.vic.gov.au/registration/approvedcourses.html>

The two programs are:

- ***MC024: Master of Applied Science (Acupuncture) by coursework; and***
- ***MC138: Master of Applied Science (Chinese Herbal Medicine) by coursework***

Attached is a program Brochure that covers both programs. More information about RMIT Chinese Medicine, a World Health Organization Collaborating Center for Traditional Medicine, is on www.rmit.edu.au/chinese-med

Please feel free to contact Mrs. Sandy Ebell on 9925 7746 or sandy.ebell@rmit.edu.au for further information and application forms.

Yours sincerely,

Associate Professor Charlie Changli XUE

Head, Division of Chinese Medicine, School of Health Sciences

Head of Centre, World Health Organization Collaborating Centre for Traditional Medicine
